Re: Monthly Report – July 2009

Report Summary:

Crime data and monthly departmental activity is summarized with an historical perspective.

Comparative Data:

Assaults and thefts reflect decreases in July; 25 and 2.37 percent respectively. Burglaries increased slightly by 5.88 percent which brings the overall total of the July Uniform Crime Index Offenses to 258. The YTD 09 total offenses are 1,828, a 4.52 percent increase over YTD 08.

Report Analysis:

There were 51 assaults reported overall; 5 of those were aggravated. Thirty of these incidents involved family violence.

Overall, burglaries increased by two incidents; habitation burglaries decreased by one incident. Of the 15 habitation burglaries reported, force was used to gain entry in 5 homes and the burglar entered through the garage or an unlocked door or window in 10 homes.

Building burglaries increased by three incidents. Eight of the 21 buildings burglarized were in construction sites.

Burglaries of motor vehicles (BMV) increased by twelve incidents. Fifty of the 67 vehicles entered were parked at a residence location; of those 50 vehicles, nineteen were entered by force, twenty-five were left unlocked, and five had no signs of forced entry so it is unknown how entry was gained. A note of interest is that of the 67 BMVs, only 15 were parked in parking lots (commercial, retail, apartment complex, school).
